Articulate Storyline 360 Masterclass - Labs

Course code: C1058 Version: v1.0 · 2 October 2026

Each lab is self-contained and includes an original BEGIN .story file, a completed END .story reference, a detailed guide and a preview. Work from a new copy of BEGIN; never overwrite the supplied baseline or END reference.

Lab sequence

1. Lab 01 — Replace Visuals and Establish a Theme — Replace supplied media and harmonise the project theme while preserving scene structure and navigation.

2. Lab 02 — Populate the Storyboard with Course Content — Turn a skeletal template into a storyboard-aligned three-slide course overview using reusable project assets.

3. Lab 03 — Curate and Replace Audience-Fit Media — Evaluate customer preferences, select a suitable visual style and replace project assets consistently.

4. Lab 04 — Create and Govern an AI-Assisted Visual Variation — Create an AI-assisted visual variation, evaluate it against the brief and retain transparent provenance evidence.

5. Lab 05 — Add Narration and Closed Captions — Add and synchronise narration, captions and accessible playback controls without duplicating unnecessary on-screen text.

6. Lab 06 — Build a Multi-Slide Audio and Caption System — Implement multiple audio/caption tracks consistently and validate timing, focus and playback behaviour across slides.

7. Lab 07 — Build a Graded Question with Feedback — Add a graded question with plausible distractors, feedback, scoring and accessible response behaviour.

8. Lab 08 — Build a Multi-Question Quiz and Result Logic — Create a multi-question quiz with single- and multiple-response items, feedback, result logic and retry behaviour.

9. Lab 09 — Add a Summary, Review and Publish Plan — Create a useful summary slide, define review criteria and configure a publish plan aligned with channel, tracking and delivery frequency.
