Lab 09 - Add a Summary, Review and Publish Plan

Course: Articulate Storyline 360 Masterclass (C1058) Version: v1.0 · 2 October 2026

Scenario

Creative Minds is preparing the camping course for stakeholder review and a controlled LMS release.

Objective

Create a useful summary slide, define review criteria and configure a publish plan aligned with channel, tracking and delivery frequency.

Supplied Articulate Storyline files

- 07_02_BEGIN.story
- 07_02_END.story

Detailed procedure

1. Create Lab-09-YourName.story from 07_02_BEGIN.story.
2. Add a summary slide that states the key campsite setup actions and a clear next step.
3. Apply the project theme and accessible heading, reading order and alternative-text conventions.
4. Check navigation into and out of the summary, including revisit behaviour.
5. Preview the full scene and complete the interaction/accessibility test matrix.
6. Run a real-device matrix on desktop, tablet and phone in portrait/landscape where supported; record readability, touch accuracy, media, orientation and resume results.
7. Prepare a Review 360 plan naming reviewers, review questions, owner, deadline and comment disposition.
8. Select a distribution target and justify web, video, Review 360 or LMS/LRS against interaction and tracking needs.
9. For LMS/LRS, specify the supported standard, completion trigger, passing rule and sandbox test; do not upload to a live LMS in this lab.
10. Define delivery frequency, reminders, content owner, review date and update trigger.
11. Compare with 07_02_END.story, save the completed .story file and publish plan.

Evidence to retain

Retain the completed .story file, summary screenshot, QA matrix, Review 360 plan and distribution/frequency decision record.

Acceptance criteria

[ ] The summary communicates the intended actions and next step.

[ ] Navigation, accessibility and real-device tests pass.

[ ] The chosen channel supports required interaction and tracking.

[ ] The delivery and maintenance plan identifies cadence, owner and update trigger.

Reflection prompts

- Which storyboard or audience requirement drove your most important decision?
- Which Storyline panel, trigger or setting proves that decision is implemented?
- What accessibility, rights or publishing evidence must accompany the finished project?
